

Qualification in Career Guidance/Development Student Destination Figures 2015

Trends from 2014 to 2015

Ninety two students completed the qualification in 2014 and 138 completed in 2015. This represents an increase in student numbers of 50%. Of these 138 students 46 of them studied at either Edinburgh Napier University (ENU) or the University of the West of Scotland (UWS) and the majority found work with Skills Development Scotland (SDS). Some students having being employed by SDS whilst they undertook the qualification on a part-time basis.

Overall the number of students finding employment increased by 1% to 91%. The number actively seeking work decreased by 1% to 5 % but the number of students not actively seeking work increased by 2% to 4 %. Reasons are looking after a disabled child; perhaps not suited to the role, undertaking Master's degree and marriage.

The number of students finding work in secondary education remained the same at 15% and those finding work in FE/6th Form Colleges also remained constant at 7%.

There was a notable decrease of 9% for those finding work in HE institutions with 13% of 2015 cohort finding work here. There was also a decrease from 7% to 3% for those students finding employment with the National Careers Service.

There was a 2% increase for students finding work in other adult guidance agencies and a 1% increase for employment in other voluntary sector guidance. Private sector guidance remained the same at 3%

Eight percent of the 2015 cohort found work in non-career guidance roles compared to 10% the previous year. The percentage of those in FE/6th Form roles remained the same at 1% and for those in HE roles there was an increase of 1% to 2%. Other public sector roles decreased from 4% to 2% and one person became self-employed in a non-career guidance role.

The percentage of students progressing to Master's qualifications decreased from 6% to 3%.
